## Experience

### Software Engineer

Tata Consultancy Services, Chennai

February 2022 - Present

- **Data Engineering**

- Created multiple data-driven solutions including Slotting Optimization, AI Model Pipelines, and Vision AI Systems.
- Focused on preprocessing, transformation, and integration to ensure high-quality datasets for AI/ML models.
- Improved model accuracy and operational insights through robust data engineering workflows.

- **AI Agent Development**

- Designed and deployed multiple AI agents for warehouse and dockyard operations.
- Built an **Admin Clerk Agent** to manage parking lot operations, vehicle flow, and worker task assignments.
- Developed a **Depo Manager Agent** responsible for overseeing dockyard operations, including container flow, internal movement, and resource allocation.
- Designed agent workflows using LangGraph, FastAPI, Azure OpenAI, and event-driven architectures.

- **ContAI**

- Led ContAI's Container Tracking System, improving global logistics traceability.
- Integrated GenAI APIs for intelligent insights and automated decision processes.

- **Other Projects**

- Developed Safety Stock Solution using Angular, FastAPI, and Apache Beam.
- Built UI and implemented KeyCloak security integration for the Scot-IP platform.
- Worked on Azure VM deployments, configuration management, and scalable application hosting.

## Skills

Python — Langchain — LangGraph — A2A — ANP — MCP — Flask — FastAPI — Angular — Typescript — JavaScript — Git/Github — Three.js — Devops — ADL — MLI — Kafka — Beam — OpenAI — PostgreSQL — EmailJS — Bootstrap — HTML/CSS — Latex

## Education

### B.E. Electrical and Electronics Engineering

Arunai Engineering College

7.56 CGPA

## Personal Projects

### Portfolio-Focused AI Chat Companion

Lightweight chat service that only talks about portfolio. It reads the portfolio, stores the key points, and uses a compact AI model to match each question with the most relevant snippet before replying in plain language. There's also a voice mode that turns any response into a WAV audio file, so the answers can be heard as well as read.

### Version Controlled Resume

This resume is maintained as code using TeX and version controlled through Git.

## Achievements

- **ContAI Project Recognition at Tata Innovista and Patent Achievements**

Recognized for front-end development and deployment in Piloted Technologies. Played a key role in patent acquisition.

- **Scot IP: Patent Approvals and Successful IP-Safe Process**

Contributed to UI, authorization, and successful IP-Safe clearance, resulting in patent contributions.

## Courses

- Angular - The Complete Guide, Udemy, 2023
- Restful API with Flask, Udemy, 2023
- Python + AI Crash Course, Udemy, 2024
